

How do I check for permissions?

Blade

```
@can('acme.view')  
    ...  
@endcan  
  
@canany(['acme.add', 'acme.edit'])  
    ...  
@endcan
```

Routes

```
Route::get('/acme', [AcmeController::class, 'index'])  
    ->name('admin.modules.acme')  
    ->middleware('can:acme.view');
```

Controllers

```
if ($this->can('acme.view')) {  
    // ...  
}  
  
if ($this->canAny(['acme.add', 'acme.edit'])) {  
    // ...  
}
```
