

Introduction to Attributes

Attributes allow you to create variant products within your ecommerce store. Attributes are your product options such as size and colour.

See "[What is an attribute?](#)"

A typical attributes list;

The screenshot displays a user interface for managing attributes. On the left is a vertical sidebar with various icons. The main content area is titled 'Attributes' and includes a '+ New Attribute' button in the top right corner. Below the title is a search bar with the placeholder text 'Search...'. To the right of the search bar are buttons for 'Search' and 'Sort by...'. A table-like structure follows, with rows for 'NAME' and 'Colours', each preceded by a checkbox. At the bottom of this section, there is a 'Show Per Page' dropdown menu currently set to '24', and a status message indicating '1 attribute group found'.
