- Step 4 - Click the 'Export' button in the top right of your screen

The screenshot shows the 'Redirects' management interface. At the top right, an 'Export' button with a dropdown arrow is circled in red. Below the header, there is a search bar and a 'Sort by...' dropdown. A form section allows adding new redirects with fields for 'From URL', 'To URL', and 'Status' (set to 301), and an 'Add Redirect' button. A table lists existing redirects with columns for 'FROM URL', 'TO URL', and 'STATUS CODE'. The table contains four entries, each with a checkbox and a right-pointing arrow. At the bottom, a 'Show Per Page' dropdown is set to 24, and it indicates '4 redirects found'.

FROM URL	TO URL	STATUS CODE
☐ /contact	/contact-us	301
☐ /jobs	/careers	301
☐ /stores	/our-stores	301
☐ /team	/our-team	301

- Step 5 - Click 'Export as CSV'
