

Introduction to combinations

Combinations are used where you want to give a unique identity to a combination of filters.

Combinations example - Guitar Amps on Sale

For example if you wanted to create a combination called: **Guitar Amps on Sale**

This would include all reduced price mens items, and would combining the following:

- Collection: **Sale**- Category: **Electric Guitars** » **Amplification**

See "[What are combinations?](#)"

A typical combinations list;

The screenshot shows a web interface titled "Combinations". On the left is a vertical sidebar with icons for various functions. The main content area has a header with a search bar, a "Search" button, a "Sort by..." dropdown, and a "+ New Combination" button. Below this is a table with two columns: "LABEL" and "URL". The table contains three rows, each with a checkbox, a label, a URL, and a right-pointing arrow icon. At the bottom of the table, there is a "Show Per Page" dropdown set to "24" and a status message "3 combinations found".

☐	LABEL	URL	
☐	Everything pink on sale	/sale/pink	→
☐	Fender Guitars	/electric-guitar-dept/electric-guitars/fender	→
☐	Guitar Amps on Sale	/sale/electric-guitar-dept/amplification	→
