

How do I remove the manufacturer from the product slug/url?

The manufacturer name is automatically prepended to the product slug (its URL). If you wish for this to not happen you can set the static

Aero\Catalog\Models\Product::\$slugContainsManufacturer boolean to **false**.

```
<?php

namespace Acme\MyModule;

use Aero\Catalog\Models\Product;
use Aero\Common\Providers\ModuleServiceProvider;

class ServiceProvider extends ModuleServiceProvider
{
    public function setup()
    {
        Product::$slugContainsManufacturer = false;
    }
}
```
